TECHNICAL DATA

- **Material:** transparent polycarbonate
- **Lockout points:** 1
- **Padlock hole diameter:** 7 mm
- **Colour:** transparent

SIZES AND STORE SKUS

Small **VSBL11** Large **VSBL12**

APPLICATION

Two interlocking semi-circular covers enclose the valve and prevent it being turned. The clear polycarbonate body leaves the valve position and any pipe marking visible while the cover is fitted. One lockout point takes a padlock with a shackle up to 7 mm.
